2. PRINCIPAL ACCOUNTING POLICIES

The condensed consolidated financial statements have been prepared on the historical cost basis except for certain properties and financial instruments, which are measured at fair values, as appropriate.

Other than changes in accounting policies resulting from application of amendments to Hong Kong Financial Reporting Standards Accounting Standards, the accounting policies and methods of computation used in the condensed consolidated financial statements for the six months ended 30 June 2025 are the same as those followed in the preparation of the Group’s annual consolidated financial statements for the year ended 31 December 2024. Details of the changes in accounting policies are set out below.

Application of amendments to HKFRS Accounting Standards

In the current interim period, the Group has applied the following amendments to a HKFRS Accounting Standard issued by the HKICPA, for the first time, which are mandatorily effective for the Group’s annual period beginning on 1 January 2025 for the preparation of the Group’s condensed consolidated financial statements:

Amendments to HKAS 21

Lack of Exchangeability

The application of the amendments to a HKFRS Accounting Standard in the current interim period has had no material impact on the Group’s financial positions and performance for the current and prior periods and/or on the disclosures set out in these condensed consolidated financial statements.

3. SEGMENT INFORMATION

The executive directors have identified the Group’s three (2024: three) products and service lines as operating segments as follows:

- (a) Property development consists of the sales of properties which were completed;
- (b) Property investment consists of the leasing of investment properties; and
- (c) Property management consists of the provision of property management services.

These operating segments are monitored and strategic decisions are made on the basis of adjusted segment operating results.

No provision for Hong Kong Profits Tax has been made as the Group has no assessable profits arising from the operations in Hong Kong.

The income tax provision of the Group in respect of operations in Mainland China has been calculated at the rate of 25% (2024: 25%) on the estimated assessable profits for the period, based on the existing legislation, interpretations and practices in respect thereof.

Land Appreciation Tax (“LAT”) is levied at the properties developed by the Group for sale in the PRC. LAT is charged on the appreciated amount at progressive rates ranged from 30% to 60%.

According to the relevant tax law and its implementation rules, dividends receivable by non-PRC-resident corporate investors from PRC-resident enterprises are subject to withholding tax at 10%, unless reduced by tax treaties or arrangements, for profits earned since 1 January 2008. The Company and its subsidiaries obtained the Certificate of Resident Status of the Hong Kong Special Administrative Region and have satisfied the “Arrangement between the Mainland of China and the Hong Kong Special Administrative Region for the Avoidance of Double Taxation and the Prevention of Fiscal Evasion with respect to Taxes on income” and therefore have adopted the withholding tax rate at 5% for PRC withholding tax purposes for the calendar year 2023 and the two succeeding calendar years.

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS AND FINANCIAL REVIEW

Overview

The principal activity of Talent Property Group Limited is investment holding. The Group engages in the businesses of (i) property development, (ii) property investment and (iii) property management in the PRC since the Group completed the acquisition of equity interests in various real estate projects in the PRC in 2011 (the “Previous Acquisition”).

Revenue and gross profit

During the six months ended 30 June 2025 (the “Reporting Period”), the Group recorded an unaudited consolidated revenue and gross profit of RMB153.8 million and RMB8.9 million, respectively, compared to revenue of RMB170.4 million and gross profit of RMB36.4 million for the six months ended 30 June 2024 (the “Preceding Period”).

Revenues of RMB49.0 million and RMB93.6 million (Preceding Period: RMB81.9 million and RMB43.9 million) were recognised from the respective delivery of properties sold for Guangzhou Xintian Banshan and Xuzhou Linan Intelligent Industrial Park with gross floor areas (“GFA”) of approximately 900 square meters (“sqm”) and 17,500 sqm (Preceding Period: 1,300 sqm and 4,300 sqm), respectively. However, there were no sales revenue from Yangzhou Intelligence Living City and other properties of the Group (Preceding Period: RMB15.9 million and RMB17.9 million, respectively).

During the Reporting Period, the overall Chinese real estate market exhibited mixed performance with occasional stabilization due to various government measures that bolstered sales. In Guangzhou, luxury housing market showed differentiated characteristics. High-end projects in the core areas sold well, while transactions in the peripheral areas remained weak. Subscription and contract sales for Xintian Banshan totaled approximately RMB51.5 million (Preceding Period: RMB85 million) with GFA of approximately 900 sqm (Preceding Period: 1,300 sqm).

Xuzhou real estate market showed signs of bottoming out and increasing differentiation. While, there was still de-stocking pressure in the commercial office market in certain areas of Yangzhou. New subscriptions and contract sales totalling RMB53 million (Preceding Period: RMB18 million) were recorded, substantially driven by the Xuzhou project.

Slight improvements in export and retail sales of consumer goods in Guangzhou compared to the Preceding Period, these gains have not yet translated into growth in the commercial and industrial real estate markets. Within the city, the supply of new office space increased, and rental adjustments to attract new retailers continue in the market. Rental income and property management fee income from our Talent Shoes Trading Center and other Group properties amounted RMB7.5 million (Preceding Period: RMB6.8 million) and RMB3.7 million (Preceding Period: RMB4.0 million), respectively.

After taking into account the costs from the Previous Acquisition, subsequent development cost, the net provision for impairment loss as well as our pricing and changes in revenue mix, gross profit decreased to RMB8.9 million and overall gross profit margin reduced to 5.8% (Preceding Period: gross profit of RMB36.4 million and gross profit margin of 21.3%), respectively.

Distribution costs, administrative and other operating expenses

During the Reporting Period, distribution cost, administrative and other operating expenses totalling RMB23.4 million (Preceding Period: RMB23.0 million) was recorded. The Group maintained a cautious approach to cost control.

Share of result in an associate

The Linhe Cun Rebuilding project is an old village redevelopment project located in the CBD of Tianhe District, Guangzhou, adjacent to the Guangzhou East Railway Station. The project is undertaken by an associate (the “Associate”) which is owned 30% by the Group and 70% owned by Sun Hung Kai Properties Group. All commercial and residential units were sold and delivered in previous years. During the Reporting Period, the Associate generated modest income from the sale and rental of car parking spaces. The Group’s share of the Associate’s profit for the Reporting Period was RMB0.6 million (Preceding Period: RMB2.0 million).

Fair value changes on investment properties and provisions for impairment losses on properties under development and held for sale

We have considered the factors outlined in the paragraph titled “Revenue and Gross Profit” above, as well as the valuation conducted by the independent property valuer. A fair value deficit on investment properties of RMB35.3 million (Preceding Period: RMB18.8 million) was recorded. This deficit was mainly attributable to our Talent Shoes Trading Center. Provision for impairment losses totalling RMB1.9 million was recorded for our logistic commercial project in Yangzhou during the Reporting Period (Preceding Period: RMB5.7 million for Xuzhou project).

Finance cost

Finance costs were reduced to RMB0.8 million (Preceding Period: RMB3.0 million) due to the early repayment of certain borrowings in last year.

Income tax credit/(expenses)

Income tax credit was recorded. This primarily resulted from the reversal of previously provided deferred tax liabilities as well as reduced tax charges due to lower revenue and thinner profit margin.

Loss for the period attributable to owners of the Company

Given the decrease in revenue and gross profit as well as the fair value deficits and provision for impairment loss against our property portfolio, which partly offset by income tax credit, the loss attributable to owners of the Company narrowed from RMB49.8 million in the Preceding Period to RMB39.1 million in the Reporting Period.

PROSPECT

After the end of the Reporting Period, the Chinese real estate market exhibited typical characteristics of a traditional off-season. Trading volume has reached a recent low, and downward price pressure intensified except Shanghai. The Group's low-gearing capital structure and cautious approach on cost management enabled the Group to endure through this period. The Group will closely monitor market sentiment and local environment of where our projects locate to promote destocking and seize opportunities for cash returns.

LIQUIDITY AND FINANCIAL RESOURCES

The Group's total assets as at 30 June 2025 were approximately RMB2,444.1 million (31 December 2024: approximately RMB2,697.4 million) which were financed by the total equity of approximately RMB1,456.8 million (31 December 2024: approximately RMB1,498.1 million) and total liabilities of approximately RMB987.3 million (31 December 2024: approximately RMB1,199.3 million) respectively.

The directors consider the Group will have sufficient working capital for its operations and financial resources for financing future investment opportunities.

The Group borrowings were all denominated in Renminbi. Bank balances and cash were mainly denominated in Renminbi. As at 30 June 2025, there were no outstanding forward contracts in foreign currency committed by the Group that might involve it in significant foreign exchange risks and exposures.

CAPITAL STRUCTURE

As at 30 June 2025, the Group's gearing ratio then computed as total liabilities over total assets was approximately 40.4% (31 December 2024: 44.5%). As at 30 June 2025, bank borrowings amounted to RMB33.3 million (31 December 2024: RMB33.3 million) carry variable interest rate of the People's Bank of China 5 years loan base interest rate or plus 0.55% inflated rate.

EXPOSURE TO FOREIGN EXCHANGE

The revenue and the cost of goods sold and of service of the Group are mainly denominated in Renminbi. Therefore, the Group is not exposed to any other material foreign currency exchange risk.
